

THOUGHTFUL LEADERSHIP IN A THINKING ENVIRONMENT®

THE QUESTION

If you knew that everyone can think well for themselves, how would you demonstrate shared leadership?

THE PROPOSITION

The Thinking Environment is based upon the observation that everything we do depends upon the quality of the thinking we do first. So, the most important expertise we can acquire is the ability to help others think well for themselves. Explore the work of Nancy Kline and Time to Think, a discovery into the transformational nature of a Thinking Environment.

OBJECTIVES

- Discover the components of the Thinking Environment
- Explore the building blocks of the Thinking Environment
- Practice applying the components and applications to thoughtful leadership
- Reflect on changemaking in the context of shared leadership

INDICATIVE OUTLINE

90 MINS
of experiential
learning
